The Only Condition on Which the General Will Be Received is on a Peace Mission Between Colombia and Panama.

His purpose he said was to inform Secretary Hay of General Reyes' arrival and the object of his mission. He also wished to arrange a call for the General on the Secretary. He made a long visit and it can be stated that Herran was advised of the exact attitude which the Washington government will assume towards Reyes. If he pleases to meet the state department and for the purposes which they may name, the arrangement of peace terms between Colombia and Panama, he will be cordially received. Otherwise the visit to the department will be fruitless and the mission to Washington will be a failure.

BIG NAVAL MANEUVERS.

Plans Completed for Winter Maneuvers in the Caribbean.

Washington, D. C., Dec. 1.—The General Board of the Navy, of which Admiral Dewey is president, is well pleased over the bright outlook that exists for the success of the winter maneuvers in the Caribbean. The plans, which have just been completed in their final details, have been drawn on a more elaborate scale than anything of the kind previously attempted by the navy.

The movements incident to the evolutions practically begin this week with the assembling of a dozen or more battleships, cruisers and other craft of war in Hampton Roads prior to departing for the scene of the maneuvers. For four full months the evolutions will continue and all of the squadrons in the Atlantic will take part.

The ships will be under command of the senior squadron commander, except during the months of February and March, when Admiral Dewey will again hold his four-starred pennant and assume direction of the competition in which records are to be made in target firing and fleet evolutions. The entire month of March will be devoted to shooting. This target practice will take place in the vicinity of Florida Bay.

In accordance with the elaborate program arranged by the General Board the coast and Caribbean squadrons assemble at Hampton Roads this week. The coast squadron will make Key West the rendezvous, while the Caribbean will use Guantanamo as headquarters. The battleship and Caribbean squadrons will rendezvous at Culebra the first week of January, where they will coal and refit, ready for evolutions and exercises scheduled to begin January 12. The European squadron, it is planned, will assemble at St. Vincent's, Cape Verde Islands, and arrive at Culebra a few days before the date set for the beginning of the evolutions. The South Atlantic squadron is to assemble at Para and reach Culebra about the same time as the European squadron. During the period between January 12 and February 6 the entire fleet will be occupied in tactical evolutions and a great variety of exercises.

Chief among these will be the campaign of expeditious force of

400 marines from the Dixie, which will be ordered to establish a base on the coast of Porto Rico to provide for its defense and to engage in operations leading up to some adequate objective point, probably the capture of one of the island municipalities. This expedition will be away from the ships for a period of 15 to 20 days. The men will, therefore, have to transport all their supplies and munitions of war as in an actual campaign.

For nine days prior to February 15 the fleet will be maneuvered at sea, arriving at Guantanamo February 18. From that day until March 1 is to be allowed the ships to refit and reach Florida Bay prepared to go into the record-making competition which is to be held during the month of March. The competition will be first among individual gunners on each ship, then between gun crews on the same ship, then between the ships, and finally between whole squadrons. All the work that is done before March 1 will be but a preparation for what may be termed the finals in the great shooting tournament.

NOT SO BAD AS REPORTED.

Denver, Colo., Dec. 1.—Governor Peabody has decided, after perusing the letters written by Secretary William D. Hayward, of the Western Federation of Miners, which Adjutant General Bell declared to be "incendiary and incriminating," that there is nothing in them to make a fuss about.

SPOKE OPTIMISTICALLY.

Russian Foreign Minister Thinks the Negotiations Will Result in a Pacific Settlement.

St. Petersburg, Dec. 1.—At the weekly reception of members of the Diplomatic Corps Saturday, Foreign Minister Lamsdorff spoke optimistically of the "crisis in the far east. He expressed the opinion that the Russo-Japanese negotiations will result in a pacific settlement.

There nothing is published, but here a satisfactory report is published abroad of a new Anglo-French movement for concerted action in the interest of a peaceful solution of the Russian Japanese difficulties. The views of each being known at St. Petersburg and Tokio, it is pointed out that it is an extremely delicate matter to offer unsolicited voice. A prominent diplomat conversant with the process of negotiations says that Japan is willing to recognize Russian interests and necessity for Russian troops in Manchuria, but in return wants trading privileges for Japanese in the province acknowledged by solemn reiteration of assurances given by Russia to the United States and Japan. Then, if Russia subsequently took over Manchuria, existing treaty rights to be protected, otherwise they would lapse.

The largest land sale that has been made in the Pecos Valley for many years was completed yesterday when the deal was closed for section 32, which is known as the Greenfield farm sixteen miles south. W. Warren recently bought 300 acres adjoining Greenfield through Richey & DeFreest. The land was unimproved and brought \$35 per acre, or \$10,500. S. E. Winston purchased the Fitzgerald place here last June and the consideration was over \$40,000.

Mr. Cartwright will return here in the near future to take charge of the place and will plant a large number of fruit trees. R. L. Warren, his brother-in-law, is an attorney and will remain in Terrell.
